SKILLS SUMMARY

- **Languages:** Python, C++, SQL, JavaScript, HTML, CSS
- **Frameworks:** Django, Django REST Framework
- **Tools/Platforms:** Git, GitHub, VS Code, Codeforces, Leetcode
- **Backend:** SQL, Relational Database Management Systems
- **Concepts & Domains:** Backend Development, Data Structures & Algorithms, OOP, Computer Networks, AI Agents
- **Soft Skills:** Team Collaboration, Problem-Solving, Leadership, Technical Communication

PROJECTS

Library Management System | Python, MySQL | GITHUB Sep 2025

- Built a Python command-line application backed by MySQL to manage books, users, and rental transactions.
- Designed a relational database schema to efficiently store and retrieve book, user, and rental records.
- Implemented core library operations including cataloging, user registration, and rental tracking; earned 6 GitHub stars.

Student_mate | Python, Generative AI | GITHUB Feb 2026

- Developed StudyMate, a Generative AI concierge agent that functions as a personal academic manager not a simple task list.
- Designed the agent to actively manage user memory and time, tracking context across study sessions.
- Deployed StudyMate publicly for a month-long trial, got 68 users organically footfall..

AgriHelp | JavaScript | GITHUB Jul 2026

- Developing a JavaScript-based web application aimed at supporting farmers and agricultural stakeholders.
- Building core features to improve access to agricultural information and decision-making tools.
- Using PWA technology to have offline help on the go for remote areas.

TRAINING

5-Day AI Agents Intensive with Google - Kaggle| Certificate Dec 2025

- Gained hands-on expertise with agentic AI architectures, tool calling, memory management, and multi-agent workflow orchestration using modern LLM APIs.
- Built autonomous agent prototypes capable of executing multi-step reasoning, external search retrievals, and automated task execution.
- Studied prompt optimization techniques, latency reduction strategies, and systematic evaluation of agent-driven decision pipelines.

5-Day AI Agents: Vibe Coding Course - Kaggle| Certificate Jul 2026

- Practiced rapid, iterative AI-assisted coding workflows, building and refining agentic tools through fast prompt-to-code cycles.
- Applied agentic design patterns to real coding tasks, reinforcing concepts from the earlier AI Agents intensive.
- Explored techniques for maintaining code quality and project structure while utilizing AI-driven rapid development frameworks.

CERTIFICATES

- Gear-Up 4.0 36 Hrs Hackathon| Sep 2025
- Times Critical Thinking Championship - The Times Of India| Certificate Apr 2026
- AI Fusion Prompt Hackathon - IIT Ropar| Certificate Feb 2026
- Agrithon on Campus| Mar 2026

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering Aug 2023
  CGPA: 8.76
